TARGET AUDIENCE

This activity is intended for cardiologists, primary care physicians, and diabetologists and endocrinologists.

GOAL STATEMENT

The goal of this program is to improve application of heart failure-related cardiovascular outcome trial data in people with type 2 diabetes and heart failure.

LEARNING OBJECTIVES

Upon completion of this activity, participants will be able to:

- Describe the relationship between heart failure (HF) and type 2 diabetes (T2D)
- Discuss CVOT data demonstrating benefits of T2D therapies on hospitalizations for HF
- Apply recent HF-related CVOT data for newer T2D therapies
- Plan individualized approaches to addressing diabetes in patients with HF
- Discuss interprofessional roles and management of patients with T2D and HF

ACCREDITATION STATEMENT

Physicians

The Heart Failure Society of America is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The Heart Failure Society of America designates this live activity for a maximum of 1.5 **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Registration for the 22nd Annual Scientific Meeting and an official name badge are required to attend this symposium
